Snapshots from implementing technology in young learners’ language teaching classrooms
Do you have everything under control?
If they are not interested then the lesson is a waste of time.
How do we make them be interested then...
Are we far beyond their habits?
…then the lesson is not interesting enough for them!
If they are happy ... we are happy!
IN CASE OF FIRE:
Please leave the building before posting it on social media.

This generation...
Technology is a part of their life. Technology can:
- enhance teaching and learning environments/reach high-quality education
- enable self-paced learning/enable personalized and engaged learning.
- live contact between the teacher and the student (web-based learning, internet, video, audio aids)
- Create interaction/Nurture powerful communities of learning.
Key factors to stimulate learning...

Very young learners need:
- A safe and secure learning environment
- A sense of belonging
- A chance to experiment and use their imagination

Building the learning environment...

Putting them at ease:
- The classroom can be an intimidating place for the very young
- Integrate ways to help them feel relaxed and motivated
- Help to maintain order by organizing the learners as they enter.
